Wir helfen Ihnen dabei, den gesundheitsrelevanten Abstand erfolgreich in unseren Alltag zu integrieren – Schritt für Schritt auf dem Weg in eine neue Normalität. Der TÜRDRÜCKER G2 verhindert als Zusatzlösung für bestehende Türgriffe, dass Türklinken zum unkalkulierbaren Gesundheitsrisiko werden. Leicht, stabil, mobil und gleichzeitig multifunktional: Mit unserer neuen Trennwandkollektion gestalten Sie bewusst separate Bereiche in Ihren Räumlichkeiten, geben Laufwege vor und garantieren so Distanz im Interior. Die TRENNWAND T2 sichert beispielsweise als flexible Tischlösung insbesondere im Office, in Schulen, Universitäten und Bildungseinrichtungen die Einhaltung des gewünschten Abstands zum Sitznachbarn. Sie benötigen im Foyerbereich ein attraktives, beschriftbares Display für die Montage eines Desinfektionsmittelspenders? Hier steht Ihnen das neue HINWEISSCHILD H2 zur Verfügung.

Physical Distancing, in anderen Worten das Abstandhalten zum Nächsten, wird sich aufgrund unserer momentanen Erfahrungen zu einer neuen Form der Wertschätzung und gleichzeitig zu einer Hygiene-Schutzmaßnahme entwickeln. Diese neue Herausforderung haben wir bereits fest im Blick und möchten Ihnen mit unseren cleveren Raumentrennungsmodulen helfen, Ihre Räumlichkeiten zu strukturieren, für Ihre Kunden, Besucher, Schüler, Studenten und Gäste eine Raumnavigation zu definieren, Kassen- und Schalterbereiche zum Kundenbereich hin abzutrennen oder einfach Bereiche zu schaffen, in denen Diskretion großgeschrieben wird. Alle Raumentrenner-Modelle sind bequem und werkzeuglos montierbar, als Variante mit Schichtstoffplatte abwaschbar sowie desinfektionsmittelbeständig und können insbesondere in Hotellerie und Gastronomie mit Hilfe eines optional erhältlichen Stoffüberzuges pure Wohlfühlatmosphäre verströmen. Oder möchten Sie Ihre Stellwand – egal ob als bodenstehende oder tischmontierte Lösung - zusätzlich als Infotafel nutzen? Kein Problem dank Einhängelplatte zur Magnetbefestigung oder digitaler Screenlösung.

Individualisierte Lösungen im professionellen Innenausbau bieten wir Ihnen als Planer aus Leidenschaft selbstverständlich ebenfalls an und begleiten Sie durch alle Phasen und Prozesse.

Sprechen wir doch einfach miteinander.

- > Furniture panel L2-P EUR 147,- (Minimum order quantity 3 pieces)
- > 1 foot L2-F EUR 36,-
- > Steel plate for magnets L2-M EUR 38,-
- > Fabric cover L2-S EUR 59,-
- > U-shaped element for panel fixation L2-U EUR 15,-
- > Trolley EUR 778,-

# Partition Screen L2

The **Partition Screen** model **L2** combines a light, laminated furniture panel with two solid metal feet and thus ensures perfect distance. Set up individually or in a row, vertically or horizontally, the room divider can be easily positioned by a single person. With each partition screen **L2**, self-adhesive Velcro strips are supplied, which allow a quick arrangement of several screens if required. Screws for additional fixation are also included in the scope of delivery. With matching accessories, we offer further options for a smart use of **L2**. An optionally available fabric cover creates a comfortable living atmosphere. The optionally available, attachable steel plate for magnets converts the **L2** into an information or promotion display.

**Dimensions** 900 x 1800 mm, panel weight approx. 23 kg

**Foot** Powder-coated metal, microstructure

**Panel** Laminated furniture panel with shock-absorbant ABS edge

**Accessories** Velcro strip, standard part of delivery  
Screws for additional fixation, standard part of delivery  
Attachable steel plate for magnets

With its slim dimension, the **Signage Sign H2** is 'the little brother' of our L2 partition system and can be used in areas with public traffic. Would you like to present your existing disinfectant dispenser in an appealing way and combine it with a stainless steel drip tray? Just mount it to the new **H2** then. Would you also like to provide your visitors and guests with information about its utilization? No problem thanks to the additionally available attachable steel plate for magnets or a digital information screen.

Additional fixation possible despite acoustic element

# Table Partition Panel T2

With a protrusion of approx. 200 mm the distancing effect does not stop at the table edge...

Foot option  
'Freestanding'  
T2-F1

Foot option  
'Longitudinal installation'  
T2-F2

Foot option  
'Transverse installation'  
T2-F3

The individually shaped, slim **Table Partition Panel T2** completes rosconi's partition system collection for office environments, educational institutions, company restaurants or conference rooms. It helps to ensure the health-relevant distance from the person next to you. If discretion is a topic, the solid core panel comes in handy, if transparency and a see-through look are preferred, the acrylic glass is the ideal choice. Thanks to their convenient, tool-free mounting options, three different foot options adapt perfectly to the individual table conditions.

#### Dimensions

Table depth	Width of matching partition panel
500 mm	700 mm (Protrusion approx. 200mm)
600 mm	800 mm (Protrusion approx. 200mm)
700 mm	900 mm (Protrusion approx. 200mm)
800 mm	1000 mm (Protrusion approx. 200mm)

Height 600 mm

#### Foot

Steel sheet, 4 and 5 mm thick powder-coated in white

- > Option for longitudinal installation  
(For table thicknesses of 10 - 30 mm)  
If necessary, the table partition can be locked on the foot with the help of a grub screw.
- > Option for transverse installation  
(For table thicknesses of 10 - 30 mm)  
If necessary, the table partition can be locked on the foot with the help of a grub screw.
- > Option for freestanding positioning

#### Panel

Solid core panel, 6 mm thick or transparent acrylic glass, 6 mm thick

Disinfectant-resistant

Wipeable

Suitable for nearly all commercially available door handles

# Door Lever Handle G2

With the **G2 Door Lever Handle**, your door handles do not pose a risk to health, since spreading bacteria or viruses through the palms of your hands is a thing of the past. Suitable for all commercially available door handle models - regardless of whether the handle is round-shaped or angular-shaped - the **G2 Door Lever Handle** can be easily fitted onto the existing door handle and allows the door to be opened comfortably and safely by wrist or elbow. The model is available in pairs for left and right mounting.

**Door Lever Handle G2-R**  
(Double-sided pair with **round-shaped mounting bracket** for all round/oval door handle designs)

**EUR 38,-**

**Door Lever Handle G2-E**  
(Double-sided pair with **square-shaped mounting bracket** for all square/rectangular door handle designs)

**EUR 38,-**

G2-R-Weiß (White)  
G2-E-Weiß (White)

G2-R-Silber (Silver)  
G2-E-Silber (Silver)

G2-R-Schwarz (Black)  
G2-E-Schwarz (Black)

**Dimensions** Width 150 x Height 60 mm

**Material** Rilsan-coated metal, shock-resistant and shock-proof 300 µ

**Mounting bracket** Rilsan-coated metal | Round-shaped or square-shaped mounting bracket selectable for existing door handle design | Left or right mounting option selectable

## We protect you.

- + Premium acrylic glass, edges trimmed at an angle
- + Slim design for impression of barrier-free customer contact
- + Minimal assembly effort, extreme stability
- + Stackable for space-saving storage
- + Easy cleaning with conventional cleaning agents

# Spit Protection Screen TYPE S

The **Spit Protection Screen Type S** is made of transparent acrylic glass and provides a service hatch. The acrylic glass panels are only 5 mm thick, a fact that guarantees space-saving storage after use. Cleaning and disinfection involve conventional cleaning agents and disinfectants. Another advantage is the tool-free assembly as a plug-in system on solid feet.

### Cleaning instructions

- Use a microfiber cloth, lukewarm water and a small amount of detergent for cleaning.
- Avoid glass cleaners, abrasives or solvents for cleaning since they can scratch or even damage the acrylic glass. As an alternative, use a vinegar-based cleaner. However, do not use more than 2 capsfuls to 5 litres of water.
- Scratches or damages can be polished off with special pastes.
- Tough soiling can be removed with conventional benzine or similar products. Do not apply excessive pressure while cleaning, wipe gently.
- Do not dry the acrylic glass after cleaning, otherwise it becomes electrostatically charged.

EUR 260,-

<b>Dimensions</b>	Screen: W:750 x H:900 mm Hatch cut-out W:500 x H:200 mm
<b>Material</b>	Acrylic glass, 5 mm, can be cleaned and disinfected with conventional cleaning agents
<b>Color</b>	Transparent
<b>Assembly</b>	Tool-free assembly as plug-in system on feet
<b>Options</b>	Optional foiling of the spit protection possible (logo, warning notices, pictograms, etc.)

## We protect you.

- + Slim design for impression of barrier-free customer contact
- + Minimal assembly effort, extreme stability
- + Stackable for space-saving storage
- + Easy cleaning with conventional cleaning agents

# Spit Protection Screen TYPE M

The **spit protection screen Type M** does not require any additional feet, because its hinged side wings ensure an independent and secure positioning from an angle of 20°. Just like its little brother, Type S, it offers a service hatch and adapts perfectly to any room interior thanks to the 5 mm thick acrylic glass.

### Cleaning instructions

- Use a microfiber cloth, lukewarm water and a small amount of detergent for cleaning.
- Avoid glass cleaners, abrasives or solvents for cleaning since they can scratch or even damage the acrylic glass. As an alternative, use a vinegar-based cleaner. However, do not use more than 2 capsfuls to 5 litres of water.

# Disinfectant

EUR 9,00

50 ml bottle for hand disinfection

Acts against bacteria, fungi and enveloped viruses

Works within 30 seconds

Made in Germany

**Composition:** Ethanol 80%, hydrogen peroxide 0.125%, glycerin 1.450%, purified water. **Application:** Rub your hands with approx. 3 ml of the solution and keep them moist for 30 seconds. **Warnings:** Highly flammable liquid and vapor. Causes serious eye irritation. May cause drowsiness and dizziness. Keep out of the reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Do not smoke. Keep container tightly closed. **In case of contact with eyes:** Rinse cautiously with water for a few minutes. Remove contact lenses if possible. Continue rinsing. Dispose of contents / container to an approved disposal company or municipal collection point. Do not discharge into the sewage system.
